About Me

Data Analyst with legal and compliance background, expertise in delivering research-driven solutions that mitigate business risks and ensure regulatory compliance. Team Player with problem-solving and communication skills, coupled with extensive project management experience. Proficient in SQL, Python, and Tableau, utilizing data-driven insights to drive strategic decision-making while upholding data privacy and compliance standards.

Projects

Rockbuster Stealth LLC | Market Analysis for Movie Rental Company

- Used PostgreSQL for querying, cleaned & summarize, filter and order data using the WHERE and HAVING clauses.
- Used SQL Joins to extract information from multiple tables.
- Transformed subqueries into common table expressions and SQL results were used for visualizations & deriving insights with Tableau.

Instacart | Customer Behavior Analysis of Online Grocery Basket

- Conducted data wrangling and subsetting and data consistency checks using Python.
- Merged, analyzed, and added new columns with conditional logic, functions, loc, and for-loops.
- Generated summary statistics and visualizations using groupby and Python
